## The end of an era...

Take a look at your shelf or down at your hands.

Do you see a deck of Ellusionist cards? Do you see our Bicycle Ghost, 1800's or Shadowmasters decks?

The decks you currently own have just become infinitely more valuable.

**Why? They're now forcibly discontinued.** We have no stock of all 3 designs to sell you, and won't ever again - *this is how it happened...*

A few years ago, the United States Playing Card Co. reached out to us to let u know their legal team was locking down their 'Rider Back' artwork.

**No gaffing, no staining, no shadows, fades or alterations of any kind.**

In legal terms, if you allow an inch, you're giving a mile. USPCC didn't want to allow the smallest alteration to the design, so they could fight fraudulent infringements on their Rider-back design overseas.
